1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

After "June 18, 2002" on page 1, line 4, of the specification, please insert "now abandoned".

2. The following is an examiner's statement of reasons for allowance: For reasons consistent with that given by applicants, the provisional rejections under 35 USC 102(e) have been withdrawn. Applicants' responses have successfully established invention of the subject matter of the rejected claim prior to the effective date of the reference. In response to the issues raised in the advisory action dated applicants have established the obviousness of the general amino silane of formula (I) in claim 1 over that shown in the declaration. Also applicants have established the obviousness of the 80 wt% monol limitation over the 60 wt% monol limitation shown in the declaration. That is, knowing that 90 wt% does not work, it would have been within routine experimentation, and thus obvious, for the skilled artisan to arrive at an 80 wt% upper limit over the exemplified 60 wt%. The Examiner draws attention to MPEP 715.02 which states:

"Even if applicant's 37 CFR 1.131 affidavit is not fully commensurate with the rejected claim, the applicant can still overcome the rejection by showing that the differences between the claimed invention and the showing under 37 CFR 1.131 would have been obvious to one of ordinary skill in the art, in view of applicant's 37 CFR 1.131 evidence, prior to the effective date of the reference(s) or the activity. Such evidence is sufficient because applicant's possession of what is shown carries with it possession of variations and adaptations which would have been obvious, at the same time, to one of ordinary skill in the art."

As noted previously, applicants' Terminal Disclaimers have been accepted.  
Currently claims 1 to 8 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
